JAPAN SEEKING MEXICAN TRADE

Nipponese Agents in Southern Republic to Extend Commercial Relations.

Representatives of three different industrial commissions from Japan are now in Mexico seeking opportunities for the extension of commercial relations between the two countries, according to the latest issue of the Mexican Review, the official organ of the Mexican government, which was received here yesterday.

Mining, petroleum and shipping are the three subjects in which the commissions are interested. The representatives of the Yokohama Steamship Company is investigating sources of fuel supply in connection with the discovery of petroleum supplies on the west coast, as the Japanese wish to substitute oil for coke and coal, not only in their shipping, but in many other enterprises. It is probable, the Review states, that concessions will be sought for the development of portions of the petroleum fields in the States of Sonora and Sinaloa. Sonora borders the United States.

Other information concerning increased activities of the Japanese in Mexico are contained in the same issue. That the Japanese, it says, are making a determined effort to capture a good share of the trade of Mexico becomes more and more apparent from day to day. It continues:

"The newspapers publish with frequency news regarding the progress of this movement. One of the latest events of this kind was the arrival of 20,000 tons of sugar of superior quality at Salina Cruz on the Pacific Coast side of the Isthmus of Tehuantepec, directly from Tokyo.

"It is announced in the press that the Japanese agents of manufacturers and other enterprises are determined to get a large share of the Mexican trade and to that end are offering merchandise of all kinds at much lower prices than any one else. They are also securing many customers. They are said to be selling at lower rates than they are asking for the same articles in other countries."

Poison Oak

So bad is this demon of torture that perhaps you are contemplating seeking a doctor to get relief. Why have you refused to use Tyree's Antiseptic Powder for these tormenting cases of Prickly Heat, Poison Oak and Mosquito Bites? The person who does not use Tyree's Antiseptic Powder freely in these cases deserves to be tormented, because the effect of Tyree's Antiseptic Powder in these irritating cases is almost marvelous. One or two tablespoons full dissolved in a basin of water will relieve you while you are applying it. When used in the same dilutions its application is very pleasant and non-irritating.

For thirty years Tyree's Antiseptic Powder has been the accepted standard for personal hygiene. In small, medium and large sizes—for sale by all drug and department stores. Remember the name—TYREE'S—accept no other.

Tarboro, N. C. Holds Its Greatest Celebration

Tarboro, N. C., July 4.—The greatest celebration in the history of this county was held here today. The entertainment began early and continued until late in the afternoon. In honor of returned soldiers and sailors, veterans of the world war. One of the features was the parade, in which soldiers, sailors, Confederate veterans, Daughters of the American Revolution and city officials participated. Judge John H. Kerr of the Superior court, was the orator of the day. Soldiers and sailors were tendered a barbecue dinner.

PETWORTH HAS ALL DAY EVENTS

Celebration Exceeded All Previous Patriotic Demonstrations.

Petworth's Fourth of July celebration exceeded anything of its kind ever seen in that locality.

The parade started on Quincy street and the marchers, led by the Bureau of Engraving and Printing Band, proceeded to the Petworth School, where impressive flag-raising ceremonies took place.

A community celebration in the nature of athletic events took place at Grant Circle in the afternoon. Prizes were awarded.

From 5 to 6 o'clock, a picnic supper was served in Libby Park. This was followed by patriotic exercises with Representative Edward C. Little and Josiah L. Carr, president of the Petworth Citizens' association, as the principal speakers.

"The people of Washington ought to vote," said Representative Little. "This is too simple to be argued. But you are going to have a hard time if you insist on statehood, with two Senators."

"I believe Congress should return the District to Maryland, to the extent that Congressmen and Senators would be elected as part of that State. This arrangement would be perfectly just; and I believe it could be brought about more quickly than any other."

At dark the sky was lighted up with fireworks. Ladies of the Petworth Baptist Church presided at a cafeteria supper which preceded and followed the afternoon and evening ceremonies.

Consul General Robertson has cabled from Buenos Aires, May 8, 1919, that by an executive decree of May 5 the decree of February 4, 1919, establishing minimum prices for cereals has been annulled.

THOUSANDS SEE PEACE TABLEAUX

Symbols Presented Before Public Buildings and On the Ellipse.

Symbolizing the entire circle of human endeavor, and typifying the return of soldiers and sailors to civilian occupations, seven tableaux, enacted before public buildings, were witnessed by thousands yesterday.

Miss Edna Heineman directed "The Call to World Service," given at the east front of the Red Cross Building, Seventeenth and D streets. "The Call of Labor," was staged on the Ellipse, under the direction of Miss Florence Smith, assisted by Frank Coleman, E. A. Hayden, Miss Nora B. James and Miss Mary O'Sullivan.

The national life of Lithuania was depicted in "The Call to Liberty," at the east front of the D. A. R. Building. This event was featured by the Lithuanian Choir, of Baltimore.

Pan American Tableaux. Countries of the Pan American Union took part in the "Call of Commerce, Business and Professions" in front of the Pan American Building, Seventeenth and B streets northwest. Miss Ruth Jane Bauske, of the War Camp Community Service, directed this, assisted by Miss Videll Hudler and Miss Gertrude Cherry.

"The Call of the Children," on the Ellipse, was an unusual spectacle, with several thousand children taking part. The Marine Band played for this event, which was directed by Mrs. Susie Root Rhodes, supervisor of city playgrounds. She was assisted by Miss Eunice Ennor.

"Call of Art" at Treasury. Mrs. Glenna Smith Tinnin directed the brilliant tableaux, "The Call of Art," on the south steps of the Treasury. Figures of Drama, Tragedy, Comedy, Architecture, Painting, Music, Sculpture and Plastic Art were presented.

Many soldiers watched with interest the "Call of the Land," on the grounds of the Department of Agriculture, representing the summons of America to her service men to return to the pursuits of agriculture.

People of the world returning to the pursuits of peace were depicted in the "Offering of Peace," held at the south front of the National Museum and directed by Miss Helen Irvin.

During the spectacles, which were held immediately prior to the great international peace parade, groups of trumpeters blew calls to peace.

In 1898 gasoline sold for 6 cents a gallon.

Announcement

We are glad to inform our patrons, and the public of Washington, that Mr. Cherrie M. Levy, until recently with Company B, 312 Machine Gun Battalion, 79th Division, is now manager of this store, where he will be pleased to meet and serve his old friends and new patrons.

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.

10 per cent is frozen pork that is to be cured later in the year.

6 per
